VENTANA LE & VENTANA CONSTRUCTION
LIKE A FINE HOME, Ventana is framed 16 inches on center, allowing the best placement of outlets, switches and other components. Newmar uses only Sikaflex elastic adhesive throughout Ventana’s construction – one of the strongest bonding agents available. It seals against air and water and helps dampen sound and vibration. Electrical wiring holes in Ventana’s aluminum frame are ringed with plastic grommets to protect wires from chafing. And Newmar’s Total Comfort™ Central Air is two separate, fully ducted systems that distribute cool air and remove warm air.

**OUR PARTNERS**

WHERE THE FINEST NAMES IN QUALITY AND PERFORMANCE ARE ALONG FOR THE RIDE.

To assure that you experience only the best in comfort, control and unsurpassed convenience in our incomparable family of Luxury Coaches, Newmar partners with the most prestigious names in mobile lifestyle, entertainment and technology. These brands are leaders in their fields – and legends in providing customers with new, unsurpassed levels of quality and reliability. Best in class performance from names you can trust. At Newmar, that’s our difference. And our promise.
According to Newmar president Matthew Miller, “Customers say they’re loyal to us because they trust us to stand behind our products – from support, parts and service to paying our warranties. It feels good to own a coach that has all of that behind it.”

How do we sustain this high level of service? At Newmar, there’s a Miller way of doing things. These principles guide us every day. Courtesy. Integrity. And reliability. So when you buy from Newmar, you know that every single person who touches your coach or talks with you has your back. Period.
