VENTANA & LE CONSTRUCTION
Like a fine home, Ventana is framed 16 inches on center, allowing the best placement of outlets, switches and other components. Newmar uses only Sikaflex® elastic adhesive throughout Ventana’s construction – one of the strongest bonding agents available. It seals against air and water and helps dampen sound and vibration. Electrical wiring holes in Ventana’s aluminum frame are ringed with plastic grommets to protect wires from chafing. And Newmar’s Total Comfort™ Central Air is two separate, fully ducted systems that distribute cool air and remove warm air.

Interior Features
Flooring – both tile and carpet – is installed with Newmar’s own in-house process, ensuring the best in quality and longevity, as well as the finest fit.

Trust.
The strongest possible foundation for a motor coach.

According to Newmar president Matthew Miller, “Customers say they’re loyal to us because they trust us to stand behind our products – from support, parts and service to paying our warranties. It feels good to own a coach that has all of that behind it.”

How do we sustain this high level of service? At Newmar, there’s a Miller way of doing things. These principles guide us every day. Courtesy. Integrity. And reliability. So when you buy from Newmar, you know that every single person who touches your coach or talks with you has your back. Period.

Our Partners.
Where the finest names in quality and performance are along for the ride.

Newmar strives to offer the best motor coach experience possible, and to that end we partner with the most prestigious names in mobile lifestyle, entertainment, and technology. Depending on the Newmar motor coach you choose, our compliments range from Sony’s comprehensive audio, video, communications and information technology to Freightliner and Spartan’s superior and dependable chassis designs. Newmar only accepts best-in-class performance from the most trusted names in the business. At Newmar, that’s our difference. And our promise.
