2012 MOUNTAIN AIRE
A LEGEND, REDEFINED.
DID WE MAGICALLY EXPAND ITS INTERIOR? OR IS IT YOUR IMAGINATION?

The 2012 Mountain Aire coach seems to open up before you seamlessly. Its unique new floor plan, with entry side dinette and facing streamlined Eurostyle lounges, creates the perfect space for entertaining or relaxing. The kitchen, with its large picture window, pushes back toward the rear of the main coach to give the chef some breathing room. Flush floor slides create a smooth, seamless look. And its Cummins® 450 HP diesel power opens up the road, too.

A WINNING LOOK.

Mountain Aire’s new exterior graphics and paint schemes will get you noticed on the road. Its signature Newmar Full-Paint Masterpiece™ Finish and Super Clear Coat make the impression a lasting one.
FOR A PARTY OF TWO OR A REUNION, YOUR DELUXE COACH AWAITS.

Mountain Aire’s newly designed polished tile floor creates the impression of an area rug. Yet its flush floor slides create a smooth look that makes the main coach seem larger. Paneled hardwood fascia with built-in lighting add a soft mood to the space. And each roomy hardwood cabinet is handcrafted by Amish artisans who meet Newmar’s exquisite fit and finish standards.

COMFORT

The new Mountain Aire interior gives you bountiful comforts and a wide range of rich decor schemes, including even more plush UltraLux leather furniture with designer cording trim and stainless appliances like the microwave convection oven and optional residential refrigerator.

EYE-CATCHING DESIGN

Mountain Aire’s main coach area features an ‘area rug’ design in tile, flush floor slides and comfy furniture. Polished Corian® countertops with a checkerboard tile backsplash create a dramatic effect in the kitchen. A 40” Sony® LCD TV with Surround Sound Dolby Digital and DVD player tucks neatly in the front overhead area.
THE KITCHEN THAT IS ALSO A ROOM WITH A VIEW.

Some kitchens are strictly utilitarian; others are inspiring. Mountain Aire’s is both. Fine handmade hardwood cabinets surround its L-shaped design, complete with a designer backsplash and polished Corian® countertops. The chef will be smiling.

TOP: Metallic flower and leaf backsplash tile accents bring a touch of nature to Mountain Aire’s kitchen.

RIGHT: A streamlined Flexsteel™ dinette lets you enjoy breakfast, lunch or dinner in comfort. Or just relax and watch the sun set through the spacious kitchen and dinette windows.
BEDROOM

The Mountain Aire bedroom shines literally. With two softly lit hardwood panels on each side of its king size Sleep Number® Bed*, its quilted leather and hardwood scrolled headboard will encompass you. Its 40” Sony flatscreen TV with Bose Wave® surround sound and Blu Ray will absorb you completely.

BATHROOM

The designer checkerboard tile pattern over a Corian® countertop surrounded sink creates a focal point in this well appointed Mountain Aire bathroom. And the radius shower with optional teak shower seat afford you some well deserved pampering.

*optional
Comfort drive™, another exclusive Newmar innovation, means less effort turning the wheel when you back up or turn. The steering wheel returns to center automatically, even after hard turns. And with Comfort Drive™, you steer with a light grip, making long trips less tiring.

Mountain Aire’s 43’ Freightliner chassis comes prewired for an optional Eaton Vorad Smart Cruise System. When approaching slower moving traffic with the system active, it adapts your coach’s cruise speed to that of the closest vehicle ahead, allowing your coach to maintain a specific following distance while in cruise control. Together, these systems offer you the ultimate in driver safety and confidence.
**Gross Vehicle Weight Rating** is the maximum allowable weight of the vehicle, including all cargo, passengers and driver.

**Unloaded Vehicle Weight** is the weight of this motorcoach without any cargo, passengers or driver.

**Gross Axle Weight Rating** (GAWR) is the maximum allowable weight of the motorcoach, as specified by the manufacturer of the vehicle.

**Gross Combined Weight Rating** (GCWR) is the total weight of the motorcoach and all its cargo, passengers and driver.

**Net Carrying Capacity** is the maximum allowable weight of the motorcoach, as specified by the manufacturer of the vehicle.

**Brake Axle Rating** is the maximum allowable weight of the motorcoach, as specified by the manufacturer of the vehicle.

**Suspension** is the system of springs, shock absorbers and links that helps to absorb the impact of bumps and potholes while driving.

**Brakes** are the system of components that slows or stops the motorcoach when the brake pedal is pressed.

**Tires** are the round objects that are securely attached to the motorcoach that make contact with the road to provide traction and support the weight of the motorcoach.

**Tire Pressure Monitoring System** is a system that monitors the tire pressure of the motorcoach.

**Engine** is the system of components that converts chemical energy into mechanical energy to power the motorcoach.

**Transmission** is the system of components that transfers the power from the engine to the wheels of the motorcoach.

**Air Conditioning & Heating** is the system of components that cools or warms the air inside the motorcoach.

**Exhaust** is the system of components that expels the exhaust gases from the motorcoach.

**Power Generation** is the system of components that produces electric power for the motorcoach.

**Water & Sewer Systems** are the systems of components that provide water and sewer services for the motorcoach.

**Communication Systems** are the systems of components that allow the motorcoach to communicate with other vehicles or the outside world.

**Security Systems** are the systems of components that protect the motorcoach and its occupants.

**Entertainment Systems** are the systems of components that provide entertainment for the motorcoach's occupants.

**Storage Compartment** is a compartment that provides storage space for the motorcoach's occupants.

**Body Construction** is the system of components that provides structure and protection for the motorcoach.

**Safety Features** are the systems of components that enhance the safety of the motorcoach.

**Luxury Features** are the systems of components that provide comfort and convenience for the motorcoach's occupants.

**Color Options** are the options available for the motorcoach's exterior color.

**Interior Options** are the options available for the motorcoach's interior design and features.
The quiet, energetic farm town of Nappanee, Indiana is home to Newmar's owners, the Miller family. They are actively engaged in its operations, embracing employees, suppliers, dealers and customers as part of the Newmar family. The family has grown since 1968 but continues to strive for faithfulness to the tenets of its founders, including a strong community, bearing burdens for others, forgiveness, fairness, honesty, integrity, and peace with one's neighbors.

Newmar is an innovator and leader in the RV manufacturing industry. Its quality craftsmanship is recognized nationally. The Newmar dealer network spans across the United States and Canada.

NEWMAR EXPRESS LIMITED WARRANTY
Every Mountain Aire Diesel Pusher is backed by Newmar's one-year limited warranty/unlimited miles. Ask your Newmar dealer for details.

LIMITED FIVE-YEAR STRUCTURAL WARRANTY
If any part of your Newmar recreational vehicle superstructure (which is the steel/aluminum structure of the sidewall, roof or frame) fails to perform properly within five years from the date of purchase because of faulty workmanship or material supplied by Newmar, it will be repaired without charge for either parts or labor by Newmar. This structural warranty is available only to the original purchaser and is non-transferable.

Some features in our literature are optional. Colors and finishes are photographic representations. The actual materials may look different. Prices, specifications and floorplans are subject to change at Newmar's discretion, without prior notice or obligation. Please see your dealer for actual samples and specifications.
