Building Memories ...
You know that old photo album you have? The one filled with pictures of your favorite moments throughout the years? The one that shows birthdays, graduations, weddings, and that time the kids spent all day building that enormous sand castle? How long has it been since you have dusted it off and taken a look – or added to it? Well, let us help.

Now is your chance to hit the road. Take a look at the Torrey Pine – a fifth wheel built with quality and comfort unique to Newmar. Revel in the beauty of the intricate design details such as the leaded décor glass cabinet doors, detailed slideout fascias and crown molding. Cook up that secret family recipe in the well-appointed kitchen. Tell stories around the classy dinette. Or watch the sunset from beneath your patio awning.

The road is waiting.
It’s time to grab the camera.

Newmar. When you know the difference.
Moments to Remember

35KSLR shown with Onyx décor and Ginger Maple hardwood cabinetry.
Put together a feast or a picnic spread in the Torrey Pine kitchen. It’s a space built to please and it’s ready to help you fix all your favorites, from rosemary chicken to microwave popcorn.

To make any meal possible, Newmar built in the best amenities, including an optional Norcold® four-door refrigerator with cold water dispenser, 30-inch convection microwave, and a three-burner recessed cooktop with glass oven door and electronic ignition. You have plenty of space to spread out with the deep Samsung Staron™ countertop with integrated solid surface sink. Standard extras such as the Corian® knife block and paper towel holder are within easy reach to make preparation a cinch.

From floor to ceiling and everywhere in between, the kitchen has plenty of room to house all of your much-needed ingredients. The extra-deep drawers give you ample storage and glide effortlessly on ball-bearing guides. The full-height pantry with fully adjustable slideout shelves provides easy access to all your provisions. The rich Ginger Maple hardwood cabinets are vented, allowing air movement to help keep all your food and stored items fresh for when it’s time to whip up a delicious meal.
Share your favorite memories around the freestanding Super Slider dinette table that comfortably seats up to four adults. You’ll spend hours chatting in the padded chairs with under-seat storage perfect for place mats, photo albums and travel essentials.

Whether talking over a cup of coffee or relishing a romantic dinner for two, achieve the perfect ambiance thanks to an overhead light, day/night pleated shades, lighted toe kicks and ceiling-mounted track lighting.

Spend time reflecting in the beautifully decorated Torrey Pine living space. The carefully chosen décor creates the perfect backdrop for reminiscing. Delight in the rich warmth of the hardwood crown molding, slideout fascias and wall-mounted reading lights. Relax in the glider recliner chairs, while talking with friends or enjoying the flat screen television. Easily convert the hide-a-bed sofa to accommodate overnight guests—whether old friends or grandkids.
Newmar designed Torrey Pine to keep you in complete comfort. You’ll appreciate the thoughtfully grouped interior/exterior light switches and thermostat. Stay cool on those warm, sunny days with the ceiling fan and specially-engineered, dual-ducted Total Comfort™ central air conditioning system. For those cooler times, warm yourself with the 42,000-Btu furnace with in-floor ducted heat and optional fireplace.
Whether daydreaming or settling in for the night, the Torrey Pine bedroom suite welcomes you. Sink into the King Koil™ queen-size bed with its luxurious suede quilted bedspread and matching shams, accent pillows and headboard. The warm Ginger Maple cabinetry, hardwood slideout fascias and leaded glass doors provide an ambiance unique to a Newmar fifth wheel. You’ll find plenty of storage tucked inside the cedar-lined closet and under the bed. Convenient lifts allow for easy access to that under-bed storage space.

The bathroom area is a dream in itself with radius vanity top and cabinet front, Samsung Staron™ countertop with integrated solid surface sink and oil-rubbed bronze fixtures. The large shower features a built-in seat, privacy rain glass, and its own light and skylight. Plus Torrey Pine includes a standard monogrammed linen package complete with sheets, pillowcases, towels and washcloths.

Take some time to unwind in the bedroom suite. Sit back and enjoy the 20-inch LCD television or listen to music from the living area’s entertainment center through two bedroom speakers with on-off isolation switches. Even more extras come standard with the convenience package that includes a floor safe, hair dryer and cordless vacuum.
Take Time for Your Beauty Rest
While you’ll notice the Newmar beauty in the sleek exterior graphics, rich fabric choices and cedar-lined wardrobe, most of the beauty you’ll experience isn’t often seen. Actually, it’s in places you may never see. It’s tucked inside the hardwood cabinets, behind the crown molding and beneath the padded carpeting. From the aerodynamic front-end cap to the LED tail lights, the Newmar difference is encased in every aspect of the unit as shown in the Extra Mile Differences on the next few pages. In the end, these unique Newmar features will not only give you that wonderful experience you’re looking for, they will give you peace of mind so all you have left to do is build memories that last a lifetime.
...more than skin deep!
Cantilevered Aluminum Roof Trusses are fabricated by Newmar and placed 16 inches on-center to provide superior strength. Again, extra aluminum and extra welds provide extra durability.

Newmar-Made Skid Bars are a lot different from the flimsy ones that are more commonly used. Constructed of thick bar steel and reinforced with even more steel, this is the super-duty, real-world version to help protect the RV underbelly from abruptly-angled roadway approaches. A Newmar exclusive.

Another Newmar Innovation, the Slideout Cog Wheel, was designed for a fuller engagement of the gears to prevent common gear slippage. The complete slideout system – from the superior strength foundation through the durable high-torque motor mechanism, to the independent operation and the unique self-storing travel-lock arms – is designed to provide years of convenient, smooth, dependable service.

An Incomparable Superstructure, the Torrey Pine Chassis is designed and built by Newmar with stronger steel, extra reinforcements and additional welds to make it exceptionally robust. The huge 12-inch steel I-beams provide superior Moment of Inertia (stiffness) and Section Modulus (bending stress) over smaller, thinner I-beams and stacked tube steel. Engineers take advantage of the entire height of the I-beam to attach full 12-inch steel outriggers for extended stability and strength. Many other outriggers are partial-height. Newmar believes that a home on wheels should start with a solid and stable foundation.

Newmar Builds Walls and Roofs residential-style, with studs located 16 inches on-center. Extra C-channel aluminum studs and extra welds may cost more, but they provide a superior wall structure. Stud construction allows for residential-style wiring and conveniently located switches. Walls and wall studs are then bonded with a technologically-advanced adhesive, SikaFlex®, that is durable and flexible to absorb and soften the effects of travel.

The Total Comfort® Dual In-Roof Ducting System was engineered by cooling experts especially for Newmar. With multiple strategically placed vents, the system provides true central air conditioning for unparalleled cooling efficiency, balance and whisper-quiet operation.

What makes Newmar different? Newmar understands the real world of RV travel and works diligently to design and build quality products that provide comfort and superior performance. Newmar designers do things a bit differently, taking more time and using more materials to get it right. As a vertically integrated manufacturer, Newmar builds much of the recreation vehicle themselves and relies less on sub-assembly suppliers. That means more control over design and quality. Newmar engineers better understand the unit as a whole and know how to create a solid, strong RV that offers innovation, convenience and durability. Going that extra mile to create a top-quality fifth-wheel results in a peace of mind unique to Newmar owners. That's the Newmar difference.
Your Torrey Pine fifth wheel reflects Newmar’s long history of product innovation and industry “firsts.” You can depend on the exacting standards and meticulous care by which this fifth wheel is built. It’s a showcase for Newmar value.

- FG. R-19 Fiberglass Batten Insulation
- FH. 5/8" Bead Foam Insulation
- FI. Aluminum Underbelly 4’ x 8’ Sheets
The Limited Five-Year Structural Warranty

If any part of your Newmar recreational vehicle superstructure (which is the steel/aluminum structure of the sidewall, roof, or frame) fails to perform properly within five years, from the date of purchase, due to faulty workmanship or material supplied by Newmar, it will be repaired without charge for either parts or labor by Newmar. This structural warranty is available only to the original purchaser and is non-transferable.
Newmar’s exclusive PolarPak R-19™ insulation in floor, ceiling, front and rear caps surrounds you with comfort and efficiency. It significantly increases your R-value and is standard on every Torrey Pine.

Torrey Pine Floors are extraordinarily heated, double insulated and constructed using 24-foot continuous run sheets of Weyerhaeuser sub-flooring. Fewer seams reduce the infiltration of noise, moisture, and outside heat and cold. Most other RV floors are insufficiently heated in the extremities and pieced together with 4-foot sheets.

Newmar Inspectors review each and every coach at three major manufacturing points and at several targeted spots throughout construction. Not some time, not part-time; Newmar allocates full-time, dedicated, experienced positions to assure quality and maintain construction integrity.

The Newmar-Originated Slideout, with its 2x4 steel rails and massive reinforcement, is the strongest, most reliable and most durable on the market. A superior-strength platform results from welding hefty guide rail tubes to both mainframe rails and welding extra reinforcement into the system. Closed-channel frames keep small animals and outside debris from entering the coach.

Newmar Pioneered and has a Patent on the Flat-Floor Slideout. But sliding a room in and out poses some out-of-the-way engineering and sealing challenges to do it right. Newmar developed an improved slideout wedge roof design that forms a tighter closure when the room is extended. A specially developed double-bulb, superior-memory seal provides protection from outside elements and insects, and sweeps off debris on room retraction.

Hardwood Cabinets are created by Newmar designers and constructed one at a time by skilled cabinetmakers. For increased stability, the frames are both glued and screwed. The finish is completed after assembly for a superior, unitized presentation.

Torrey Pine Solid Surface Countertops are hand-sanded, custom-fitted and seamlessly integrated with backsplashes and in-line sinks to create a single surface with no cracks for easy clean up. They are non-porous, and heat and scratch resistant. Newmar craftsmen expertly fit, finish and install them.

Grommets in Stud Holes provide extra protection to wires for years of trouble-free use. Newmar uses a premium-grade, non-sag elastomeric wall adhesive, Sikaflex®, to completely bond the wall and studs.
1. In-Line Water Filter helps ensure plenty of clean, clear water wherever you travel.

2. The Optional Rear Ladder on the Torrey Pine provides easy access to the strong BriteTEK™ covered walkable rooftop.

3. With just a touch of the optional Leveling Control Panel, effortlessly stabilize the coach to make any stay – no matter how long or short – a comfortable one.

4. The optional Hydraulic Jacks stabilize the coach easily, quickly and effectively.

5. The Clever Folding/Sliding Super Porch is another Newmar innovation and exclusive optional offering. It provides a wider platform – a porch – for more safety and stability entering and exiting the coach along with an oversized handrail.

6. Undermounted 17.5 Inch E-Rated Goodyear® Spare Tire is easy to access with lift kit.

7. Two Extra-Large 30 Lb. Propane Bottles with an automatic regulator are standard equipment. Super-large 40 lb. bottles are optional.

8. The Expansive Pass-Through SuperStorage™ area is heated and lighted. It boasts two handy cargo hooks and three-way access. Utility components are located in a separate, easily accessible compartment within the SuperStorage™ area.

9. MOR/ryde® Pin Box provides a smooth, comfortable towing experience. The optional pin box diminishes the transfer of forces from the fifth wheel to the truck, acting as a cushion to significantly and dramatically reduce the effect of chucking and road shock.
**Interior Color Options**
