For the Time of Your Life!
...to relax, enjoy the scenery and make some memories. This is the RV you’ve been searching for – a quality fifth wheel designed for the enviable few.

Take a look at the Kountry Aire by Newmar. It’s a unique offering fully appointed with luxury, quality and comfort. The handcrafted wood accents, timeless grandfather clock and intricate design details are just what you have been looking for. And the extra-mile construction features that Newmar carefully builds into each unit are the hidden extras that make all the difference. They are the definition of quality construction and the precursors to dependability and peace of mind.

This isn’t just any RV. It’s a luxury suite that goes beyond your needs and meets your discriminating taste. So take a closer look. Now’s the time.

Spend the
cooking up your favorite dishes in the Kountry Aire kitchen. Craft everything from
five-course meals to late-night snacks with the convection microwave; flush-mount,
recessed three-burner cooktop with electronic ignition; and raised-panel,
optional four-door Norcold® refrigerator with water dispenser.

The deep Samsung Staron™ solid surface countertops provide excess
room to prepare your favorite recipes. A bi-fold, solid-surface cover
that hides the cooktop and sink covers makes even more room avail-
able. Take advantage of the built-in Corian® knife block and paper towel
holder – both within easy reach.

The SuperStorage™ hardwood cabinets provide plenty of space to house your
cooking needs – everything from specialty ingredients to sugary treats for the grandkids.
Cathedral overhead compartments and floor to ceiling cabinets fill the kitchen with
grandeur and rich ambiance. The roomy pantry features fully adjustable slideout shelves
and extra-deep drawers that easily glide on ball-bearing guides for effortless access. The
lighted toe kicks beneath the cabinets and rope lighting in the ceiling add a unique touch.

Enjoy a meal or play a game of cards at the freestanding super slider hardwood table.
The two fully padded dinette chairs provide you with in-seat storage perfect for your
place mats, playing cards and miscellaneous essentials. The classy fluted-base table
easily expands to make room for more guests, and two additional chairs can be added.
An overhead light and day/night pleated shades give just the right amount of light and
privacy for those early-morning cups of coffee or late-night chess games.

The standard grandfather clock cabinet houses your keys,
while the optional central vacuum makes cleaning up a
snap. Light switches are grouped together and the systems
command center is kept out of sight within a hardwood
cabinet just above the entry door. Another way Kountry
Aire beauty is found in the smallest of places.
37KSCS shown in Espresso decor.

Take a
…to sit back and enjoy your travels. What better place than the posh living area of your Kountry Aire where the Flexsteel® sleeper-sofa and matching glider/recliner easy chairs provide you with superior comfort and support? Let the distinct décor soothe you with complementing sculpted carpeting, window coverings, decorative wall border and furniture fabrics.

When it’s time to relax, curl up in front of the 32-inch (or 37-inch depending on floorplan) LCD TV and Surround Sound system with DVD, CD and AM/FM stereo tuner. Easily check your email and play a game of Solitaire on your laptop that can be placed on the pullout shelf located just below the television on select models.

No matter the outside conditions, be in complete comfort. The Brisk Air central air conditioner keeps you cool on warm days, while the 42,000-Btu furnace with in-floor ducted heat keeps you toasty when temperatures dip down. Stay warm and cozy with the optional fireplace as you lose yourself in your favorite book.
Be wooed into restful slumber in the bedroom suite that is tucked behind a six-panel, hardwood arched pocket door. The spacious King Koil™ bed with a hardwood headboard provide you with total comfort and style. The luxury continues with the sensuous suede bedspread, pillow shams and monogrammed linen package. Take time to truly unwind in front of the 20-inch LCD TV.

A floor safe keeps your valuables secure inside the spacious cedar-lined SuperStorage™ wardrobe with laundry hamper. Store extra clothes and travel essentials beneath the bed and easily access them, thanks to helpful lifts. Kountry Aire comes prepped for a washer and dryer to be conveniently located in the bedroom suite.

After a long day of travels and exploration, unwind beneath the warm,
flowing streams of the Kountry Aire shower. Get lost behind the beautiful glass enclosure and enjoy the roomy one-piece fiberglass shower with a molded seat, adjustable height showerhead, courtesy light and skylight. The homey comforts continue with a Thetford® Aqua Magic Style™ II china toilet, Create-A-Breeze vent with auto lift and a magazine rack inside the water closet. From water closet to wardrobe, you’ll feel like you’re home.
While you’ll notice the Newmar beauty in the sleek exterior graphics, rich fabric choices and cedar-lined wardrobe, most of the beauty you’ll experience isn’t often seen. Actually, it’s in places you may never see. It’s tucked inside the hardwood cabinets, behind the crown molding and beneath the padded carpeting. From the aerodynamic front-end cap to the LED tail lights, the Newmar difference is encased in every aspect of the unit, as shown in the Extra Mile Differences on the next few pages. In the end, these unique Newmar features will not only give you that wonderful experience you’re looking for, they will give you peace of mind so all you have left to do is build memories to cherish.
...more than skin deep!
What makes Newmar different? Newmar understands the real world of RV travel and works diligently to design and build quality products that provide comfort and superior performance. Newmar designers do things a bit differently, taking more time and using more materials to get it right. As a vertically integrated manufacturer, Newmar builds much of the recreation vehicle themselves and relies less on sub-assembly suppliers. That means more control over design and quality. Newmar engineers better understand the unit as a whole and know how to create a solid, strong RV that offers innovation, convenience and durability. Going that extra mile to create a top-quality fifth wheel results in a peace of mind unique to Newmar owners. That’s the Newmar difference.

**Newmar Builds Walls and Roofs** residential-style, with studs located 16 inches on-center. Extra C-channel aluminum studs and extra welds may cost more, but they provide a superior wall structure. Stud construction allows for residential-style wiring and conveniently located switches. Walls and wall studs are then bonded with a technologically-advanced adhesive, Sikaflex®, that is durable and flexible to absorb and soften the effects of travel.

**Cantilevered Aluminum Roof Trusses** are fabricated by Newmar and placed 16 inches on-center to provide superior strength. Again, extra aluminum and extra welds provide extra durability.

**The Total Comfort® Dual In-Roof Ducting System** was engineered by cooling experts especially for Newmar. With multiple strategically placed vents, the system provides true central air conditioning for unparalleled cooling efficiency, balance and whisper-quiet operation.

**An Incomparable Superstructure, the Kountry Aire Chassis** is designed and built by Newmar with stronger steel, extra reinforcements and additional welds to make it exceptionally robust. The huge 12-inch steel I-beams provide superior Moment of Inertia (stiffness) and Section Modulus (bending stress) over smaller, thinner I-beams and stacked tube steel. Engineers take advantage of the entire height of the I-beam to attach full 12-inch steel outriggers for extended stability and strength. Many other outriggers are partial height. Newmar believes that a home on wheels should start with a solid and stable foundation.

**Newmar-Made Skid Bars** are a lot different from the flimsy ones that are more commonly used. Constructed of thick bar steel and reinforced with even more steel, this is the super-duty, real-world version to help protect the RV underbelly from abruptly-angled roadway approaches. A Newmar exclusive.

**Another Newmar Innovation, the Slideout Cog Wheel,** was designed for a fuller engagement of the gears to prevent common gear slippage. The complete slideout system – from the superior strength foundation through the durable high-torque motor mechanism, to the independent operation and the unique self-storing travel-lock arms – is designed to provide years of convenient, smooth, dependable service.
Your Kountry Aire fifth wheel reflects Newmar’s long history of product innovation and industry “firsts.” You can depend on the exacting standards and meticulous care by which this fifth wheel is built. It’s a showcase for Newmar excellence.

Newmar Express Limited Warranty
As proof of our commitment to you, we at Newmar back every Kountry Aire fifth wheel with our industry-leading, two-year Newmar Express Limited Warranty. Ask your dealer for details.
The Limited Five-Year Structural Warranty

If any part of your Newmar recreational vehicle superstructure (which is the steel/aluminum structure of the sidewall, roof, or frame) fails to perform properly within five years, from the date of purchase, due to faulty workmanship or material supplied by Newmar, it will be repaired without charge for either parts or labor by Newmar. This structural warranty is available only to the original purchaser and is non-transferable.

— the Beauty Within

The Limited Five-Year Structural Warranty

If any part of your Newmar recreational vehicle superstructure (which is the steel/aluminum structure of the sidewall, roof, or frame) fails to perform properly within five years, from the date of purchase, due to faulty workmanship or material supplied by Newmar, it will be repaired without charge for either parts or labor by Newmar. This structural warranty is available only to the original purchaser and is non-transferable.
The Newmar-Originated Slideout, with its 2x4 steel rails and massive reinforcement, is the strongest, most reliable and most durable on the market. A superior-strength platform results from welding hefty guide rail tubes to both mainframe rails and welding extra reinforcement into the system. Closed-channel frames keep small animals and outside debris from entering the coach.

Kountry Aire Floors are extraordinarily heated, double insulated and constructed using 24-foot continuous run sheets of Weyerhaeuser sub-flooring. Fewer seams reduce the infiltration of noise, moisture, and outside heat and cold. Most other RV floors are insufficiently heated in the extremities and pieced together with 4-foot sheets.

Newmar Inspectors review each and every coach at three major manufacturing points and at several targeted spots throughout construction. Not some time, not part-time; Newmar allocates full-time, dedicated, experienced positions to assure quality and maintain construction integrity.

Newmar Pioneered and has a Patent on the Flat-Floor Slideout. But sliding a room in and out poses some out-of-the-way engineering and sealing challenges to do it right. Newmar developed an improved slideout wedge roof design that forms a tighter closure when the room is extended. A specially developed double-bulb, superior-memory seal provides protection from outside elements and insects, and sweeps off debris on room retraction.

Grommets in Stud Holes provide extra protection to wires for years of trouble-free use. Newmar uses a premium-grade, non-sag elastomeric wall adhesive, Sikaflex®, to completely bond the wall and studs.

Kountry Aire Solid Surface Countertops are hand-sanded, custom-fitted and seamlessly integrated with backsplashes and in-line sinks to create a single surface with no cracks for easy clean up. They are non-porous, and heat and scratch resistant. Newmar craftsmen expertly fit, finish and install them.

Hardwood Cabinets are created by Newmar designers and constructed one at a time by skilled cabinetmakers. For increased stability, the frames are both glued and screwed. The finish is completed after assembly for a superior, unitized presentation.
This “beauty” is no pushover. It is a robust contender built to answer the rigors of travel with incomparable stability and aerodynamic design. It’s sleek, yet stout, and prepared to meet and exceed your needs.

(A) The Optional Rear Ladder provides easy access to the strong, BriteTEK™ covered walkable rooftop.

(B) Undermounted and Recessed 16-Inch Spare Tire is accessed via a handy lift mechanism behind a lockable door.

(C) 110-Volt and 12-Volt Electrical Outlets, an external cable jack and a 15-foot coiled, quick-connect water hose with sprayer are conveniently grouped, easily accessed and kept clean just inside the exterior SuperStorage™ area. Tucked away, yet handy.

(D) Kountry Aire Tows Dependably on Dual Tandem Axles and 16-Inch UniRoyal® Tires as standard equipment. MOR/ryde® suspension cushions and absorbs road shock to provide a softer ride and smoother, safer towing. Stainless steel wheel simulators are standard, too.
Discover the Everlasting Beauty

(E) Kountry Aire Comes With Two Extra Large 40-Pound Propane Gas Bottles with an automatic regulator as standard equipment. Access for maintenance is exceptionally easy thanks to a heavy-duty slideout tray.

(F) MOR/ryde™ Pin Box allows you to enjoy a smooth, comfortable towing experience. The optional pin box diminishes the transfer of forces from the fifth wheel to the truck, acting as a cushion to reduce the effect of road shock.

(G) Expansive SuperStorage™ Pass-Through Storage Area is heated and lighted. It boasts a pullout storage tray, a handy cargo hook, cargo net and three-way access. Hydraulic assist struts on the compartment doors allow for easy loading and unloading of items and are adjustable for hold-open heights.

(H) Manually Operated Sliding Porch with triple step and handrail is standard. It provides a wider platform for safety and stability entering and exiting the coach. A power option to the porch is also available with easy-to-reach control in a weatherproof compartment.
