The Future

Delayed flights, lost luggage and the promise that someday you would do it right — you would see more than the inside of hotel meeting rooms and the world at 33,000 feet. After years of long-distance and moments passed, you are finally focused on the future — and it’s looking good. Now it’s your time to be with people you enjoy, to smile more and look at the clock less.

Presenting the Mountain Aire Fifth Wheel. At Newmar, we consider the impact our products have on the quality of your life and those you care about. It’s about more than just making better products. It’s about making products that fit your lifestyle, increase your mobility and give you the opportunity to feel at home wherever the road leads you. Imagine the possibilities…

The future is waiting. Make it count.

Ready for the Future

The 2002 Mountain Aire introduces new features to help you feel at home and look better than ever when traveling. This reliable fifth wheel sports exterior graphics for a whole new and inviting style. We have also raised the rear ceiling height to provide more headroom, more space and more comfort. The Mountain Aire is ready for the future and for whatever adventures you have in mind.
Wherever you see this symbol, you can log on to our Web site to take a photo tour of the Mountain Aire's interior.
The Future is Looking Good

There is nothing more satisfying than a vacation that allows you to relax, reflect and experience life. Newmar is constantly looking for new ways to customize your travel experience to fit your lifestyle. The 2002 line-up features six all new decors with color options to personalize the look of your Mountain Aire. We have also introduced a new style of cabinetry, Pecan-Maple hardwood, as an additional woodwork option. If you’re jumping aboard the technology bandwagon, you will be pleased with one of our newest Mountain Aire options, the DVD player. Your future is looking good in the Mountain Aire, and this is only the beginning.

Main photo shows Mountain Aire Fifth Wheel 34RDCK with optional Cherry hardwood and Phantom Grey decor.
The kitchen features a beautiful Corian® countertop with an acrylic sink, a 22” space-saver microwave, a Dometic® refrigerator with optional Cherry hardwood door panels and a three-burner recessed range.

The flat-floor power slideout creates a spacious living room area, shown with Phantom Grey interior. Optional Cherry trim surrounds the entertainment center and large color television.

In the bedroom, optional Cherry hardwood cabinets provide storage around the queen-sized bed that comes with a standard quilted bedspread with pillow shams, matching bed skirt and accent pillows.
Your Future is Full of Choices

It has been said that variety is the spice of life. While we can’t take credit for the phrase, we do believe in the concept. At Newmar, we offer numerous interior options to help you customize the look and feel of your Mountain Aire. Creative decors like Italian Straw, Caspian Blue, Marrakesh Red, Sea Pearl Green, Aubergine and Phantom Grey will be the perfect interior complements to any travel setting. Oak cabinetry is a standard feature on the Mountain Aire, but you may choose Cherry hardwood, Oak hardwood, Frosted Maple hardwood, Snow Maple and, new for 2002, Pecan-Maple hardwood. Your future is full of choices; make the quality of a Mountain Aire one of them.

Main photo shows Mountain Aire Fifth Wheel 35SKDS with optional Snow Maple and Sea Pearl Green decor.
A large slideout contains a sofa/dinette shown in Sea Pearl Green decor with optional Snow Maple woodwork and trim.

The L-shaped kitchen features optional Snow Maple cabinets and Corian® countertops that provide plenty of space.

The bedroom, shown in Sea Pearl Green with optional Snow Maple cabinetry, features plenty of storage space, its own vanity and an optional 13" television.

Because Newmar frames its units like the framing in your home, we can provide true central air conditioning. Vents deliver cool air and return warm air, allowing you to close the door to a room and still enjoy total comfort.

Typical Construction Features

For construction representation purposes only. Models may differ from what is pictured.
Newmar is the pioneer in flat-floor powered slideouts. We build every slideout ourselves using a rack and pinion system and a centrally located electric motor that applies power evenly to both racks.

Beneath the Surface

At Newmar, our relentless pursuit of quality is a source of great pride. That’s why we’re not afraid to reveal what we’re really made of. When you look below the surface you can see our construction is unlike any other. We don’t take short cuts, we construct. Our units are framed like the framing in your home. No matter which model you buy, each Newmar RV is assembled on the same production line, built with the same high standards and care. Newmar Quality: A Way of Life, and we mean that from the inside out.
Delivering on Our Promises

The Newmar warranty is as straightforward and honest as our philosophy — build an excellent product and stand behind it all the way. We take pride in the fact that our 36-month or 36,000-mile, bumper-to-bumper limited warranty is the best in the industry. Being the best has many advantages. Not only do our customers go home with confidence and peace of mind, they go home with a warranty that is easy to read and understand, with no hidden fine print or confusing language.

At Newmar, we engineer quality into everything we build and require the same high standards of every component we include in our products. So, when you compare warranties, check the fine print. We think you will find our warranty amazingly simple and surprisingly complete... just the way our customers want it.

Exacting quality, simple language, and products you can trust and enjoy. That is the Newmar promise.

Don’t forget to check out the Newmar Kountry Klub. All you need for eligibility is to be a proud owner of any of the fine Newmar recreational vehicles.

We invite you to visit our state-of-the-art production facility in Nappanee, Indiana. Plant tours are offered at 10:00 a.m. and 1:00 p.m., Monday through Friday.
