NEWMAR 2002

## Share Your Life

He's a little mischievous sometimes, full of life, always curious and always on the go... he's definitely your kid.

Showing him that there's a lot more to see in life than just his back yard is your number one priority. Saving enough to get him through college when he grows up is number two. Before time slips by, you want to share your experiences and the wisdom you've learned along the way. We do too.

The American Star is special. A wonderful way to become a part of the Newmar family. And, just like your family, there's no mistaking one of our own. It's pure Newmar throughout, and it is easy to understand why. Every American Star is expertly crafted by the same team of dedicated employees who build every Newmar product, right up to and including the London Aire coach. In fact, every Newmar product built comes together at the same facility, on the same line of production. It's one of the ways we pass along our way of life, as you strive to pass along yours.

Just like your family, sharing our values has brought us a long way.

The American Star. Share your life.

At Newmar, we love to share our best with you. That is why we have developed new features for the 2002 model line that will enhance every trip you take. The American Star has stylish new graphics and redesigned front and rear fiberglass end caps for a more contemporary look and appeal. And, because we know that there is more to beauty than meets the eye, we build the 2002 American Star with Filon sidewall skin. This sidewall skin can weather the harshest treatment, and still look good throughout all the experiences that lie ahead. Built to last, built to share for all the fun in your life.
