American Star’s family of travel trailers for 2000 offers style, versatility, functionality and performance. But, more important, each offers the kind of quality that has made the American Star® from Newmar® such a great value.

On the outside, the smooth Filor® exterior sidewall skin displays our brand new contemporary graphics that set the American Star apart from other travel trailers. Inside, you’ll find three interior color schemes to choose from - Ruby Dusk, Summer Mint and Dusk Blue - that make a spacious, rich statement in an interior that is 4” taller than previous American Star models.

No matter which American Star you choose - you’ve come to the right place for real value in Newmar’s Tradition of Excellence.
1) The spacious patented flat-floor slideout is standard equipment on the American Star®. Our Dusk Blue interior color scheme is enhanced by an optional lambrequin window treatment.

2) Handcrafted cabinetry is available in Light Oak as standard, or Snow Maple (shown here) as an option.

3) Adjacent to the dining room is a custom entertainment system with an area big enough to hold a 25" TV.

4) Optional day/night pleated shades and recliners add a special touch to your relaxing area.

5) Our Ruby Dusk interior sets a gracious tone for family and friends in our big flat-floor slideout room.

6) Note how the master bedroom expands with this well designed slideout.
We love an educated consumer. The more you know about recreational vehicles, the more you'll appreciate ours. Some manufacturers might call our recreational vehicles "over built" - but that's a compliment to us. We make no apologies for building the finest recreational vehicles in the world.

Although Newmar® recreational vehicles are created and assembled in one of the largest and most advanced facilities, it's talented people that build our products. We are located in the heart of Amish Country in Nappanee, Indiana. Our employees blend old world craftsmanship with new technological advances that set our products apart.

It's a simple process for you to verify the quality of our products. The first step is to visit your American Star Dealer and examine one of our fine products for yourself. Then ask a Newmar owner and learn first hand from someone who has experienced Newmar quality.

American Star® Travel Trailers and Fifth Wheel units feature rugged wood sidewalls and roof construction and are built 16" on-center. There's R7 insulation in the sidewalls and floor and R11 in the roof. The slide-out models are built on a sturdy 12" I-beam frame.

Now you're ready for the final and most enjoyable step - choosing an American Star model that suits you. We challenge you to compare the quality of our American Star models to any other, because we're sure you'll agree - there is none better than the best - American Star from Newmar.
The American Star® Fifth Wheel travel trailer is a real hit thanks to its sensational styling, great color schemes and spacious interiors. When you choose the remarkably affordable American Star, you've selected the best value in a fifth wheel travel trailer on the market today. They all feature our new contemporary exterior graphics on sleek, smooth Filon® exterior sidewalls. Give your family and friends years of fun RVing in an American Star Fifth Wheel from Newmar®.
1) Our Summer Mint interior color scheme sets a beautiful stage in the slideout room.

2) A convenient desk with coordinating top makes for a great place to write home to friends and family.

3) Our standard light oak cabinetry plus a built-in 22" 1.0 cu. ft. microwave and a range with piezo ignition make this American Star® kitchen a real favorite.

4) Don't spend all your time inside relaxing in these handsome recliners, though it certainly would be easy to do.

5) A warm and inviting American Star® slideout room is tastefully done in our popular Ruby Dusk interior color scheme.

6) A walk-around queen-size bed and plenty of cabinetry are well-planned in the master bedroom.

7) No space is wasted. Our designers have included many beautiful amenities such as this entertainment center.
For more than three decades, Newmar® has been building America's most popular recreational vehicles. Right from the start, customers like you recognized that a Newmar recreational vehicle was something special. In a world of cookie-cutter RVs, a Newmar product has always stood out for its innovative features, outstanding performance and unparalleled quality. And, while we're proud of our tradition of excellence, we won't rest on our laurels. We're constantly refining our recreational vehicles to make them even better. We believe the models featured in this catalog are the finest we've ever built.

Thanks for taking the time to look over our products. We sincerely hope you will become one of our many satisfied customers who have learned that Newmar truly is An American Tradition of Excellence.

Mahlon Miller
Chairman of the Board

We invite you to visit our state of the art production facility in Nappanee, Indiana.

Plant tours are offered at 10:00 a.m. and 1:00 p.m., Monday through Friday.

Don't forget to check out the Klub—The Newmar Kountry Klub—that is. All you need for eligibility is to be a proud owner of any of the fine Newmar recreational vehicles.

Compliments of:
