The Mountain Aire boasts a distinguished profile in a towable vehicle, yet is available for an attractive, affordable price.

Newmar 5th wheels have the beauty, quality and reliability that all Newmar products are known for, but with such handsome features and attention to detail, they have developed a reputation all their own.

Practical, yet decorative, this oak entertainment center provides convenient storage, yet takes up very little space from the living room.

Your comfort is enhanced in this luxuriously appointed bedroom.
In the Mountain Aire's grand interior, the standard slideout makes the living, kitchen and dining areas as open and comfortable as your home. Included among a long list of fine features are name brand appliances, stately cabinetry and plenty of storage space.

Splendid design specifications and uncompromised structural quality combine with Newmar's famous Old World Craftsmanship and New World Technology for a mid-range priced, luxury class vehicle.

The handsome Mountain Aire not only looks majestic with a new, distinctive design, but feels grand in all climates with high R-factor ratings that are standard in Newmar towables.

Lengths, Heights, Widths, Dry Weights and Hitch Weights are approximate.
Newmar's Kountry Aire is breathtaking in contrast to comparable 5th Wheel homes on the market. Known as the best "full timer's" vehicle because of its built-in quality, durability and top-notch detailing, the Kountry Aire is the first choice of return customers.

Not only one, but two slideouts (one standard & one optional) are featured on the Kountry Aire towable, thus providing more comfort in living space, and the feeling that this is your "home away from home."
There's a road where tradition and technology meet, and it's off the beaten path in the heart of Amish Country in Northern Indiana. Newmar Corporation has called the small town of Nappanee "home" since 1967, and our production facilities house the careful creation of the Newmar family of motorized and towable vehicles. It is a workplace where Old World values and craftsmanship are steadfastly held by the employees, yet transferred into Newmar’s leading-edge technology and engineered innovation and quality.

Not only are our people experienced designers, builders, and marketers of our products, they are seasoned travelers...and they relate to each model they're producing, as if it were their own. Some of our best product ideas come from employees; if there's a better way to do something, they'll find it.

Travel with us off the beaten path of ordinary and mediocre RV's. Imagine relaxing in the comfort and luxury of your Newmar recreational vehicle.

Join us in Newmar's "American Tradition of Excellence," and start your own traditions...

One standard and one optional slideout are featured on this Kountry Aire towable, thus providing more comfort in living space, and the feeling that this is your "home away from home."

The handsome Mountain Aire not only looks majestic with a new, distinctive design, but feels grand in all climates with high R-factor ratings that are standard in Newmar towables.

Share in the benefits of joining the Newmar Kountry Klub, "family" with a network of chapters throughout the United States and Canada.

All you need for eligibility is to be the proud owner of any one of the fine Newmar motorhomes and towables.
“Our many employees wish to say thank you for your sincere interest in our family of quality recreational vehicles.

All of us love a winner; so for 1995, we, at Newmar Corporation, have dedicated ourselves to building the best product available for the best price possible.”

Mahlon A. Miller
Chairman of the Board
