

KOUNTRY STYLE

A publication of Newmar Corporation

Motorhomes, 1992 Model Year

"With the rooms slid out, the interior opens up like that of a fifth-wheel trailer. The broad sweep of space up front is impressive and does a lot to reduce any closed-in feeling . . ."

MotorHome magazine

Thank you for your interest in the recreational vehicles built by Newmar Corporation. We are quite proud of all the RVs we have produced during the last quarter of a century.

We are confident you will be pleased and satisfied with your purchase of one of our beautiful Newmar trailers or motorhomes.

Quality, superior workmanship and practical livability are over-used terms today because they are easy to say but difficult to achieve. Newmar, however, has always been widely recognized as a manufacturer that delivers the highest standards in the RV industry.

Through our nationwide network of dealers, we sell RV products that are designed and built for many years of over-the-road use. Please spend a few minutes at one of those dealerships and examine our coaches carefully. We know you will be pleased by what you see.

Also, we invite you to visit our manufacturing facility in Nappanee, Indiana (just off U.S. Route 6 west of town). By taking one of our guided plant tours — offered weekdays at 10 a.m. and 2 p.m. Eastern Standard Time — you can get a firsthand look at how our RVs are built, and you can see for yourself the type of world-class quality that goes into each one of our products.

Newmar's Class A motorhomes with large power slideouts are increasingly popular, and floor plans with this

unique feature are the focus of our 1992 models.

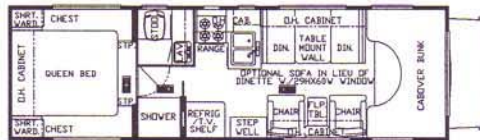

Many floor plans may be ordered either with or without slideouts to

enable Newmar customers to purchase motorhomes that fit their individual lifestyles.

Kountry Star mini-motorhomes boast of beautiful new exterior graphics and four interior decor packages. Depending upon length selected, coaches are available on Chevrolet or Ford chassis. Models are 22RK, 24RB and 29WCB.

Rose Frost is one of four new decor packages available for 1992 in Kountry Stars. Shown here is our

practical 24RB mini-motorhome. This versatile floor plan has appeal both for couples and families.

Washer/dryer systems are increasingly popular options in our Class A motorhomes, so we provide space for them in several models, beginning with our 34CBD-SS.

The spacious rear bathroom of our 24RB Kountry Star mini-motorhome provides travelers with important privacy.

New Kountry Star Pusher

This is an artist's concept of Newmar's first entry into the rear-diesel pusher motorhome arena. In addition to offering all the standard and optional features of our front-engine Kountry Stars (including slideouts), the new 38WDSK pusher is built on a Spartan chassis with a 252-inch wheelbase, Cummins 250-hp engine,

Allison four-speed transmission and self-leveling air suspension. It has a 26,000-pound gross vehicle weight rating. Priced well below Newmar's luxury-class London Aire, the Kountry Star is aimed at the mid-range level of the diesel motorhome price spectrum.

"Newmar has a reputation for being an innovator when it comes to RV design . . . You can always expect to see something rather spectacular from this company."

Don Magary
Family Motor Coaching

Dutch Star is Newmar's entry-level Class A motorhome. Available in a variety of lengths and floor plans, it utilizes a high-storage/low-profile design concept that provides nearly the storage capability of so-called basement models, but with a lower center of gravity to ensure better overall road handling. It also features a unique method of construction that pioneers a new type of motorhome sidewall — smooth, wrinkle-free aluminum skin laminated to luan over Newmar's lightweight aluminum framing.

STAR MOTORHOMES

Star motorhomes represent the best price/value products in the Class A field. They are available in three versions, all built with Newmar's famous quality, but priced to compete against motorhomes of lesser stature.

Our top-of-the-line Star is a totally new Kountry Star rear-diesel pusher (see artist's concept on next page) built on a Spartan chassis.

The second version is a standard Kountry Star

in 34 and 37 foot lengths (shown above). Choose a Ford, Chevrolet or Oshkosh chassis and select an optional slideout to fit your lifestyle — it's a feature that Newmar perfected and pioneered so that you can have more living space in your motorhome!

The third version is a newly appointed and furnished Dutch Star in various lengths. Meant for entry-level motorhome buyers, it is our lowest priced Class A.

Kountry Aire Class C mini-motorhomes are available in three models for 1992: 22RK, 24RB and 29WCB. They are designed and equipped for the RV traveler who demands the best in fabrics, furnishings and styling.

"... With its extensive list of standard features, the London Aire is a serious contender in the upper-end motorhome market."

MotorHome magazine

New London Aire Pusher

London Aire motorhomes for 1992 are offered only in rear-diesel pusher models. Built on a Spartan chassis with Cummins 300-hp engine and Allison four-speed transmission, the all-new Class A has exclusive Newmar innovations such as slideout rear bumper and ladder molded into the rear fiber-glass cap.

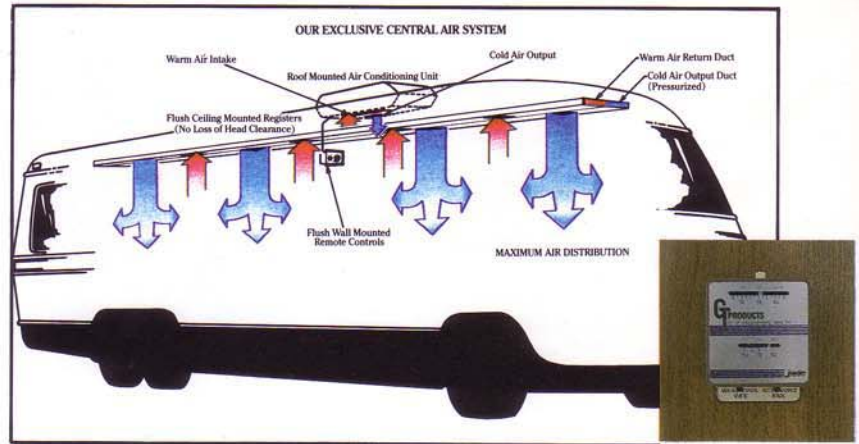

All models have self-leveling air suspension, Alcoa wheels, front rollout diesel generators and may be equipped with Newmar's famous power slide-out rooms.

Interiors feature the finest hardwood cabinetry available (cherry, walnut or bleached oak), with designer fabrics and all the home-style comforts that RVers have come to expect in London Aires.

Mountain Aire Class A's make their debut in 1992. They are designed for the veteran motorhome owner who demands luxury and quality but does not need all the features of a Kountry Aire. This moderately priced series fills an important niche between the Kountry Aire and our mid-priced Kountry Star.

REMOTE THERMOSTATICALLY CONTROLLED "ON/OFF"

Spacious livability in the Kountry Aire is emphasized by its optional 12-foot slideout and accented by the new Sunset Blue color decor.

"... I predict that Newmar has unveiled a true winner. Not only for themselves, but also for their customers who choose to buy one."

Don Magary
Family Motor Coaching

Optional cherry cabinetry is the focal accent of this 34CBD-SS Kountry Aire motorhome. This coach features Newmar's much-heralded rear-bedroom slideout (optional in select floor plans), which almost magically adds floor space at the foot of the bed and increases the bedroom's livability. Natural oak cabinetry is standard in Kountry Aire; bleached oak is optional.

Kountry Aire Class A motorhomes are, in 1992, Newmar's top-of-the-line standard coaches — London Aire models are available only in rear-diesel pusher models.

Offered in lengths of 37 and 34 feet, the Kountry Aire can be ordered built on Ford, Chevrolet or Oshkosh chassis in a variety of floor plans.

Large, 12-foot-long slideouts such as the one shown here are among the most popular options; a smaller rear-bedroom slideout is available with some models.

Kountry Aire is a name that represents quality in the mind of virtually every veteran RVer, and the 1992 Kountry Aire motorhomes maintain that enviable image.

AIRE MOTORHOMES

Aire motorhomes for 1992 are designed for the RV-buyer who demands both quality and value in the products purchased.

They are created by experienced motorhome travelers who have learned from firsthand, personal experience how a coach ought to perform, both on the road and in the campground/resort.

They are built by the same Indiana craftsmen

who have produced Newmar's quality lines of towable RVs for almost a quarter of a century.

As in the past, the overall direction of our motorhome line is set by the famous Kountry Aire series (shown here and on the cover). But this year, we are proud to announce the introduction of a moderately priced Mountain Aire motorhome as well as our first luxury-class London Aire diesel pusher.

KOUNTRY STYLE

MOTORHOMES CONTENTS

Volume VI

1992 Model Year

About the cover . . .

The 1992 Kountry Aire 34CBD-SS Class A motorhome is shown with its optional 12-foot slideout and cherry cabinetry. The slideout contains a freestanding dining table with chairs and a sofa/bed.

The Kountry Aire is Newmar's entry in high-end Class C motorhomes Page 6

A moderately priced Mountain Aire is Newmar's newest Class A Page 6

Optional washer/dryer systems are popular in our motorhomes . . . Page 9

Features

KOUNTRY AIRE 4

The brand that built Newmar's reputation has a new look outside and improved livability inside.

LONDON AIRE 6

An artist's drawing provides an advance look at the all-new London Aire diesel pusher motorhome.

KOUNTRY STAR 7

More beautiful than ever for 1992, it's now also available in a rear-diesel pusher version.

DUTCH STAR 8

Featuring all-new exterior graphics and interior decor, this coach also is more affordable.

COLORS AND FLOOR PLANS 10

Select a motorhome that fits your tastes and needs with the help of our color and floor plan charts.

Kountry Star — *2 Year Limited Warranty on Superstructure

Newmar Corporation warrants the Superstructure which includes the following: the Frame; the Aluminum Framing in the Sidewalls and Roof. If any part of the Superstructure fails to perform properly within 2 years from the date of purchase because of faulty workmanship or materials supplied by Newmar, during the ownership of the original buyer, it will be repaired without charge for either parts or labor by Newmar providing the proper claim procedures are followed. All other items excluding the Superstructure are covered under the standard Newmar 1 Year Limited Warranty. See Owner's Manual for details.

Kountry Aire and Mountain Aire — *5 Year Limited Warranty on Superstructure

Newmar Corporation warrants the Superstructure which includes the following: the Frame; the Aluminum Framing in the Sidewalls and Roof. If any part of the Superstructure fails to perform properly because of faulty workmanship or materials supplied by Newmar, during the ownership of the original buyer, it will be repaired without charge for either parts or labor by Newmar providing the proper claim procedures are followed. All other items excluding the Superstructure are covered under the standard Newmar 1 Year Limited Warranty. See Owner's Manual for details.
